

## The Calhoun Text Book (Classic Reprint)

Excerpt from The Calhoun Text Book Why that I cannot tell, said he: But twas a famous victory. If the feeling of personal sympathy are called less frequently into play by Mr. Calhoun, it cannot be denied that the deficiency thus created is amply compensated by the interest which the argument itself arouses. There is passion it is true, but it is so well trained and kept under, that we observe it like the steam in a well regulated engine, rather in the methodical and rapid action of the machinery it in uences, than in the wreaths and puffs of vapor which occasionally escape. There are no intervals for us to stop and cheer; there are no resting places by which we can get out for refreshment; but we are carried onward in a line mathematically straight to the place of destination. It is in this very freedom from digressions of all kinds that Mr. Calhoun's title to the admiration of posterity will in a great degree rest; and we have no doubt that in future periods, when local illusions and personal re tort have lost their effect, when the reader seeks to trace out not so much the private skirmishes of statesmen themselves, as the general character of the measures about which they struggled - the chaste and beautiful argumentation which distinguished him, will place him on a level with the few great minds who have been able to instruct the reason, without stooping to please the fancy. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of

imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
