

The origine of formes and qualities, (according to the corpuscular philosophy) illustrated by considerations and experiments (written formerly by way ... about nitre) by ... Robert Boyle ... (1666)

# The origine of formes and qualities, (according to the corpuscular philosophy) illustrated by considerations and experiments (written formerly by way ... about nitre) by ... Robert Boyle ... (1666)

EARLY LITERATURE.

Imagine holding history in your hands. Now you can. Digitally preserved and previously accessible only through libraries as Early English Books Online, this rare material is now available in single print editions. Thousands of books written between 1475 and 1700 can be delivered to your doorstep in individual volumes of high quality historical reproductions. This comprehensive collection begins with the famous Elizabethan Era that saw such literary giants as Chaucer, Shakespeare and Marlowe, as well as the introduction of the sonnet. Traveling through Jacobean and Restoration literature, the highlight of this series is the Pollard and Redgrave 1475-1640 selection of the rarest works from the English Renaissance.
