Id been lucky to get caught in one of the biggest snowstorms in recent history with him When hunting, getting snowed in is tough luck. But for Adam and Nolan, getting stuck in a cabin in a snowstorm is exactly what the doctor orders. In a hunting expedition, Adam and Nolan are paired with each other. While Adam, a 38-year-old orthopedic surgeon, has come out of the closet a long time ago, 20-year-old college student Nolan is still in the experimenting stage. But after a few days hunting and rooming in together, Nolan sets his target on Adam. Adam doesnt want to be seen as a predator to a younger man, so he fends off Nolans advances. That is, until Nolan gets stuck in a swamp. Adam rescues him. Hypothermia is setting in but the doctor knows exactly what to do strip the patient naked. Not only that, but Adam also gets naked, knowing that the human flesh is the best cure for hypothermia. When Nolan comes to, he realizes that the piece of instrument stuck in his crack is not a thermometer. Adam may have a hard time getting out of this one. *hot gay sex for mature audiences Sample: I watched, as Nolan got undressed.

He stripped down to his boxers and then hesitated. I usually sleep nude. Is that okay with you? he asked. Its no problem, I said. He dropped his shorts and grinned as he got into the bed. His balls hung down low and loose and his pubes were trimmed to a neat little bush. Do I pass inspection? he asked as he pulled the covers over him. I yeah, I guess so. Sorry I stared. Hey, Im not bashful. Dont get me wrong. Im not conceited, but I know I have a good body. I worked hard for it and Im proud of it. So I dont mind showing it off now and then. Well, as a surgeon, my opinion is that you have all the right things in the right places,

I said grinning. Okay, your turn, he said. I dont usually sleep nude, I replied. I showed you mine, now you show me yours.
