

University Administration and System in India

Given that the economic development, accelerated by the expanding base of higher education may lead to the reduction of other kinds of disparities social, regional, political its contribution in stabilizing our civil society at this juncture of volatility cannot be underestimated which in turn may help the process of speedy national development further. The book raises all such issues. The insight of university administration and systems in India is considered the most common issue for all the stakeholders engaged in higher education especially at post-graduate level and the readers have to wonder for authentic source of literature to understand the same. This predicament of interested readers particularly requires instantaneous efforts on the part of academe. The present book is an endeavour to put a match to the expectations of those readers particularly teachers, students and policymakers who are peripatetic for evocative lone text on the subject matters. The book includes thirty-three chapters. The basic concepts have been elucidated with suitable illustrations for covering the underlying spirit on the subject. All the chapters have been deliberated by the scholars into an uninterrupted sequence and all conceptual details provided in this text are in self-instructional mode. It is expected that the readers would find this book quite valuable and receptive.
