

## Nevadas northeast frontier

702 pp., frontis, index, bibliography, errata, chapter notes, photographs. A fine, tight copy with a lengthy gift inscription to a former owner on the first free fly leaf. Other than that it is a unmarked unblemished copy. This massive book brings to light for the first time facts of an isolated and historically neglected region of Nevada. Its a fascinating story and biography of a segment of the Great West and a much needed contribution to the history of Nevada.
