

Shimoz

Gemma, a novice psychologist, found that her world was turning upside down after she had met Yacob, her first ever patient. But Yacob wasn't any normal patient, in fact, Gemma found him a very mysterious character but that didn't stop her falling in love with him. He allegedly ran away from a war-torn country where horrific massacres had taken place. Gemma's strong agnostic beliefs begin to wane in the face of the mystifying events that were engulfing her life and Yacob's. And more was to come when Gemma coerced Yacob, by then husband and wife, to pay a visit back to his homeland in the hope of forever banishing the dark memories of the place where all his family were butchered to death. Once there, they were faced with the inevitable, yet surreal, reality that was haunting them since childhood, as everyone around them appeared to conspire to lead them up the Devil's path, quite literally, where they would finally be reunited/acquainted with their chilling destiny.
